- Presence sensor and ambient light sensor.
- Acoustic confirmation tones when display is pressed.
- RFID proximity reader for up to 2000 cards. 125 KHz cards are accepted.
- RJ-45 connector for programming.

Dimensions: 155(W) x 317(H) x 7(D)mm

More information

- The panels include Wiegand 26 (input/output) as standard:
  - **Input:** allows the connection of an external reader; the panel validates proximity and PIN.
  - **Output:** the panel acts as a reader, sending proximity and PIN identifications to Wiegand controllers (WCONTROL or iP-OPENER).

  **In versions with a 2SAFE antenna, proximity must be managed using iP-Opener 2SAFE or EASYGATE controllers.*
- CCTV input for an analogic camera.
- Possibility of displaying the door panel images in its own screen and customize the welcome screen image.
- Basic programming via the menu in the screen and advenced settings through the web client.
- Remote programming through the "Sixty5 cloud" website.
- Anti-sabotage alarm tamper.
- 12 Vcc input for local power.
- 2 relay contacts and 2 exit push button inputs.
- Requires a CE-6502 SE / CE-6502 TE embedding box
