WDLINK

WDS3000S
Intelligent Hotel Door Lock System

Main features:

* Stainless steel, elegant and firm.
* U.S standard five-latch mortise.
* Door thickness required from 35mm to 65mm.
* Low voltage warning.
* Access record checking.
* Multi-language software.
* Reliability.

Specifications

Color	Silver / golden / black (different color, different price)
Unlock method	TThotel APP, Mifare Cards and mechanical keys
Material	Stainless steel
Power	4pcs1.5V LR6AA Alkaline Batteries, DC 6V
Warranty time	18 months
Batteries Use life	normally continuous opening at least 15,000 times (10-14 months)
Card type	13.56Mhz mifare
Working temperature	-20℃-70℃
Accepted for door thickness	35~65mm
Lock weight	2.45kg
Working humidity	≤80%
Static working current	≤30μA
Dynamic working current	120mA-180mA
Reading distance	≤5mm
Reading Time	less than1s
Low power alarm	less than 4.8V(100 times at least)
